

Explore first. Learn in parallel.

Codex-native agents and skills, explicit task state, deterministic acquisition

01 THE EXPLORATION DECISION LOOP

02 AGENTS, TOOLS AND HARDWARE

.codex/agents/*.toml / Definitions validated; client loading remains unverified.
Requests enter the ledger. Generated memory is supplementary. No hooks installed.

EVIDENCE & LIMITS

43 saved trials support native response and later rest. Metric pose, stop distance and cliff avoidance remain unverified.
Solid: execution / data. Dashed: feedback / specialists. Reservations track budgets; live launchers do not enforce the ledger.
